

IT 230 | Web Service Technology

Final Term Subject Requirement

Dela Cruz, Dalisay

Specifications 15%

The Web Service meets all of the specifications.

15

Code Readability 20%

The code is exceptionally well organized and very easy to follow.

19

Functionality 20%

The Web Service works without major errors

17

Efficiency 15%

The code is extremely efficient without sacrificing readability and understanding.

9

Delivery 10%

The Web Service source code was delivered on time.

10

Code Documentation 20%

The documentation is well written and clearly explains what the code is accomplishing and how.

Teacher's Comments

Congratulations! You managed to implement a portion of a Natural Language Processing algorithm. The project's word list is very limited but a few Hiligaynon curse words were used – the team can further improve the web service using this word list reference: <http://www.noswearing.com/dictionary>. The console demo returns an error after processing the provided string but still functional. Kudos for implementing JAX-WS!
